\$200 (Tax Deductible)	10/15/2019

Student enrollment is not official until all documentation is complete.

- **Please select your payment plans carefully.** Enrollment figures drive the plans for the school year, beginning with the classes offered and the staff hired. Making changes in the computer program used to manage tuition payments is difficult and consumes valuable time of the office staff needed for other projects to serve ACA families.
- **Monthly Payment Plan Due Dates:** Monthly payments must be made through an ACH (Automatic Clearing House) authorization. This is an automatic payment to ACA on the 15th of each month (June to May) and is the required method of payment for the monthly payment plan. A printable ACH form is available in the enrollment contract. (Fill it out and send it to the office, or upload it into the enrollment contract online. This needs to be done before enrollment will be finalized.)
- ***Enrollment After June 15, 2019:** Students who are enrolled after June 15, 2019 can utilize the monthly tuition payment plan. The yearly cost of tuition and fees, after applicable discounts, will be divided into the remaining monthly payments. The first monthly payment will be due upon enrollment. The final payment will be May 15, 2020. Due to yearly tuition being divided into monthly installments, please keep in mind that a registration date after June, 2019 will cause your monthly payments to be higher than families who begin tuition payments in June.
- **Ensuring Enrollment For Your Student(s):** Student enrollment is not official until all documentation is complete. Please remember, failure to keep tuition and/or fee payments per your agreement may result in your student's name being removed from the enrollment list. This is especially important during the peak summer enrollment period. Please do not overlook your summer payments!
- **Refunds and Release of Contract:** Tuition, Student Fees, and the Capital Improvement Fund Cost Per Family are not refundable as these funds are for the ongoing expenditures and financial commitments of the Academy. There will be no release from the enrollment contract and total year's financial obligation once an enrollment agreement is signed and submitted. Any request for release from contract must be in writing, and submitted to the ACA Board of Directors.
